# Archived:Carbide.ui theme edition evolution

**Archived:** This article is archived because it is not considered relevant for third-party developers creating commercial solutions today. If you think this article is still relevant, let us know by adding the template {{ReviewForRemovalFromArchive|user=~~~~|*write your reason here*}}.

Only Publisher Partner Program members will be able to submit new theme content to the Nokia Store from 1st July 2013. Carbide.ui is no longer relevent to the community and all its articles have been archived.

**Carbide.ui plug-in for Series 40 Developer Platform 2.0 (Full Touch UI) (15 Jun 2012):** A new plug-in is available for the creation of themes for Series 40 Developer Platform 2.0 (full touch) phones. The plug-in is available through the plug-in manager feature of Carbide.ui. For more information on the theme capabilities supported by the plug-in, see Carbide.ui plug-in for Series 40 Developer Platform 2.0 (Full Touch UI).

Carbide.ui Theme Edition is the successor of the older theme editing applications. The latest release replaces all previous releases, so it is recommended to use the newest one (currently Carbide.ui 3.3).

Carbide.ui 3.4 (release date: 18-Dec-08)

Carbide.ui 3.3 (release date: 02-Oct-08) - now also supporting S60 5th edition

Carbide.ui 3.2 (release date: 2-Nov-2007) - now also supporting Series 40

Carbide.ui 3.1.1 (release date: 28-Feb-2007)

Carbide.ui 3.1 (release date: autumn 2006)

Theme Studio 3.0

Theme Studio 2.0

Theme Studio 1.0
