Category:HTML5

This category is for articles that demonstrate how to use HTML5-specific functionality (e.g. Canvas, offline storage etc) in the context of Nokia Services or on Nokia Platforms. Note that at time of writing neither Series 40 or Symbian have an HTML compatible browser, so this will primarily contain topics about desktop browser use, or about Qt Webkit/HTML5 Hybrid apps on mobile devices

- HTML5 - Introduction to local, client-side databases . . Vaishali Rawat
- How to use CSS3 image overlay effect . . Vaishali Rawat
- Show my location using HTML5 Geolocation API and HERE Maps . . Vaishali Rawat
- Basics of HTML5 Canvas . . Vaishali Rawat
