Template:UnderConstruction

This template is for marking articles as "under construction" and indicating when they should be complete.

It should be applied to at the top of new articles if they are unlikely to be finished within a day or so, and include a timestamp showing your expected completion.

Note that you will not need to add the Draft category to your article (adding this template ensure that it doesn't automatically show up in site feeds.

Usage

```
{{UnderConstruction|timestamp={{subst:CURRENTTIMESTAMP}} }}
```

The parameters are:

- *timestamp*: Time the article is expected to complete (after which you would normally be finished, and remove the template). This defaults to the current date.

Optional parameters:

- *language*: The language category of the natural language the template is to display in. If no language is specified or if the specified language is not supported then the English version is used.
  - Translations exist for: Lang-Portuguese, Lang-Chinese, Lang-Russian, Lang-Bahasa Indonesia
  - For example:

```
{{UnderConstruction|language=Lang-Chinese|timestamp={{subst:CURRENTTIMESTAMP}}
}}
```
