Portal:Featured Articles

This tick is applied to the top right hand corner of Nokia Developer Wiki "Featured" articles. Featured articles have been assessed to be of a particularly good quality by the Wiki administrators, using criteria including accuracy, neutrality, completeness, and style.

The following lists show featured articles along with their "featuring date". For a more detailed overview of the featured articles, see also these blog posts.

View by category: All | Windows Phone | Java | Web | Qt | Symbian C++ | Other

All featured articles (not including those that have been #Archived).

Article	Date
Custom theme on Nokia X	20140413
AdMob on Nokia X	20140406
Windows Phone ads providers performance	20140413
Implementing Streetview functionality with HERE Maps	20140316
How to handle JSON strings with Windows Phone	20140323
Utilizing HERE Maps with components using v4 fragments	20140330
How to create a Settings Flyout using Visual States and Blend	20140316
Nokia X FAQ	20140323
Twitter using TweetSharp Library on Windows Phone	20140330
Porting the Rate My App component to the Asha software platform	20140216
How to set WebBrowser control viewport dimensions on Windows Phone	20140216
Optical Reader Library for Windows Phone 8	20140209
Understanding LWUIT List	20140202
Transfer an Image with NFC	20140223
Using Crypto++ library with Windows Phone 8	20140112
How to create a magnifying lens application in Asha platform	20140209
Creating Emergency alerting app ("Dead man switches")	20140126
Image control using 9-patch rescaling for Windows Phone	20140105
Creating a beautiful mosaic effect using the Nokia Imaging SDK	20140119
Augmented reality for fun using Nokia Imaging SDK filters	20140406
Advanced Techniques for Big UI	20140309
Creating an RSVP Reader for Asha devices	20140112
Tiltshift effect using Nokia Imaging SDK	20140126
Building a communication system for visually impaired users on the Asha software platform	20131229
Semantic Zoom in Windows Phone 8	20140302
Building a health app for the developing world	20140119
Data validation using Fluent Validation in Windows Phone	20131215
Double Sides Flipping Control - Windows Phone	20131222
Creating and optimizing a custom effect for the Nokia Imaging SDK	20131229
How to use the EqualizerControl in the Java ME AMMS API	20140302
Using the PIM API to create Medication Reminders	20140105
Using Bluetooth Heart Rate monitor from Java ME	20131124

How to get pitch and roll from accelerometer data on Windows Phone	20131117
How to create a toggle image on Windows Phone	20131208
NFC Questions - a text based game for Windows Phone	20131110
Application update prompt using Cimbalino Windows Phone Toolkit	20131124
How to run a successful beta test on Windows Phone	20131103
Testing VoIP API with a locally configured VoIP server	20131027
Handwriting overlay lens app for Windows Phone	20131027
How to pin the application tile to the start screen from code	20131020
How to detect the audio path (headset connection) on Windows Phone	20140202
Tabbed interface with Pivot animation for Windows Phone	20130922
Partial filter application and blending with Nokia Imaging SDK	20131006
How to keep a UI element in view when scrolling a page in Windows Phone	20131201
Creating applications for multiple Nokia Java ME platforms	20130915
Storing user preferences in Java ME	20131020
Memory-efficient Navigation in Very High Resolution Images on Windows Phone	20130908
HDR I - Implementing High Dynamic Range filters using Nokia Imaging SDK	20130915
Azure Mobile Services - Implementing Push Notifications	20130818
Using the proximity sensor in Java ME	20130901
Using Nokia Imaging SDK in a Windows Phone game	20130811
Optimizing Imaging SDK use for rapidly changing filter parameters	20130929
Implementing an AM/FM radio in Java ME	20130728
Real-time camera effects on Windows Phone 7 and 8	20130825
Getting started with Inneractive Advertisement for Java ME	20130818
Checking for updates from inside a Windows Phone app	20130728
Developing Nokia Asha apps on Linux with Netbeans	20130825
Generating and scanning barcodes using ZXing on Windows Phone	20130804
Adding multilingual support to your Windows Phone application using the Multilingual App Toolkit	20130721
Handling multitouch in Java ME	20130721
Image processing showcase using the AMMS API in Java ME	20131006
How to improve your coding standards using StyleCop	20130714
How to integrate store review into an app on Windows Phone	20131013
Audio mixing in Java ME	20130929
Audio recording and playback options in Windows Phone	20130901
Image processing using Java ME	20130714
Custom Live Tile Layout with UserControl as image source	20130707
Phone Setting API on the Asha software platform	20130922
Network State API for Java ME	20130630
Porting from Nokia Asha to Series 40	20130811
Localizing a Java app on the Asha software platform	20130623
Creating LCDUI Custom Components: CategoryBar	20131201
Azure Mobile Services on Windows Phone	20130630
Nokia notifications on the Asha software platform	20130616
Creating LCDUI Custom Components: SearchBar	20130707
How to add Flurry Analytics to your Windows Phone app	20130623
