Portal:Qt Code Examples

This portal contains Qt Code examples created by the community. For "official" Nokia Developer examples see: Qt Code Examples (Nokia Developer Example Code)

- MapPlacesDemo - Plotting multiple POI on Nokia Maps . . avnee.nathani
- Photomosaic App with Qt . . chintandave_er
- Qr Decoder in Qt . . favoritas37
- WaterBubble Game Using Qt Quick . . chintandave_er
- Qt Camera Guide . . hamishwillee
- Qt Code Examples (Nokia Developer Example Code) . . hamishwillee
- Login Dialog with validated email input in Qt and Windows Phone . . somnathbanik
- Data Binding in Qt and Windows Phone . . somnathbanik
- Creating Compass in Qt and Windows Phone . . somnathbanik
- Nokia Smart Installer for Symbian . . keawutthang
- How to parse JSON string . . Tapanila
- Augmented Reality Applications with NyARToolkit and Qt3D . . Vaishali Rawat
- Reading and writing files in QML . . stupid_nokia
- How to utilise OpenGL ES 2.0 on Symbian^3 and Maemo . . Vaishali Rawat
- Getting available graphics memory using Qt on Symbian . . kratsan

- Nokia Smart Installer for Symbian
- Understanding NFC Data Exchange Format (NDEF) messages
- Get current Date and Time in Qt
- QXmlStreamReader to parse XML in Qt
- Change font in Qt application
- How to use QTimer in Qt
- Generate XML programatically in Qt
- Image editing techniques and algorithms using Qt
- How to use QDir and QFileDialog in Qt
- Using QDomDocument to parse XML
- Creating database driven applications using Qt
- Glossy Qt stylesheet
- How to do HTTP Get and Post using Qt
- Group My Pictures for Symbian - app showcase
- Reading and writing files in QML

- Qt Camera Guide . . hamishwillee
- Qt Code Examples (Nokia Developer Example Code) . . hamishwillee
- Getting available graphics memory using Qt on Symbian . . tapla
- QAugmentedReality - Local based augmented reality component . . galazzo
- Secondary camera in QML . . xmlich02
- Making a facing direction aware camera in Qt . . veektoras@gmail.com
- QReverseGeocode component for quick reverse geocoding in QML . . galazzo
- Detecting motion of a coloured object from camera viewfinder . . kunal_the_one
- Augmented Reality Applications with NyARToolkit and Qt3D . . fred.duarte
- How to add multithread support to your Qt application . . galazzo
- Multifunctional Image Tool: A base for image interaction . . favoritas37
- Photo effects with Qt . . fmunozs
- QHdrCamera component for High Dynamic Range Imaging . . galazzo
- Tutorial: Step-by-step to create a timer-based camera . . Slocan
- Get EXIF GPS data to use it in QML . . jupaavola

- Nokia Smart Installer for Symbian . . keawutthang
- Augmented Reality Applications with NyARToolkit and Qt3D . . Vaishali Rawat

(C) Copyright Nokia 2014. All rights reserved.

- QHdrCamera component for High Dynamic Range Imaging . . galazzo
- Real-time edge detection in camera viewport . . daliusd
- Quick guide to add multilanguage support to your QML application . . galazzo
- How to use QShake to detect and manage phone shaking . . galazzo
- QML Performance Meter . . tuohirv
- Transparent QML Apps . . hamishwillee
- How to create calendar component using Qt Quick . . somnathbanik
- Using QDeclarativeImageProvider for speeding up Symbian QML app installation . . truf
- NFC enabling a Bluetooth Headset using Qt . . mahbub_s60
- Logic Gates Example App using Meego Harmattan Qt Quick Components . . ck.umraliya
- Qt Quick examples for porting . . ilkkal
- Simple Splash Screen in QML . . liuxg
- How to play video in Qt on MeeGo using GStreamer . . gnuton

D

- Data Binding in Qt and Windows Phone
- Defining global variable in QML
- Delete messages using Qt Mobility API
- Detecting day of week in QML
- Detecting motion of a coloured object from camera viewfinder
- Detecting virtual keyboard open and close events in Symbian^3
- How to use QProgressBar in Qt
- How to use QShake to detect and manage phone shaking
- How to use QTimer in Qt
- How to use QVibra to enable vibration in QML
- How to use QtMobility to enable vibration in QML
- How to utilise OpenGL ES 2.0 on Symbian^3 and Maemo
- How to write debug text to file in Qt
- HttpRemote

I

- Image editing techniques and algorithms using Qt
- Implementing a Rotary Dialer with QML
- Implementing a simple View Manager with QML
- Implementing a split screen for software keyboard
- Implementing an Autocomplete Line Edit component for Qt Quick
- Implementing custom orientation changes animation with QML
- Implementing user-selectable autostart feature in Qt for Symbian
- In-app advertising how to use Inneractive API in QML application
- Incremental Search with Qt
- Inside Qt meta Object
- Inverted colors effect with the Qt graphics view framework
- Item shifting using QListWidget in Qt

K

- KAsteroids for S60

L

- Live TV with Qt
- Live radio with Qt
- Logic Gates Example App using Meego Harmattan Qt Quick Components
- Login Dialog with validated email input in Qt Quick
- Login Dialog with validated email input in Qt and Windows Phone

M

- Making a facing direction aware camera in Qt
- MapPlacesDemo - Plotting multiple POI on Nokia Maps
- MeeGo Camera VideoSurface manipulation
- QtQuick Maps Examples
- QtResistor - A Qt for Maemo Application to calculate the resistance of resistors
- QtRichTextEditor
- QtRotateImage
- QtWebKitStub
- Quick guide to add multilanguage support to your QML application
- QuteMessenger - Bluetooth Chat

R

- Read and send SMS messages using the Qt Messaging API
- Reading accelerometer sensor data using QML
- Reading and writing files in QML
- Real-time edge detection in camera viewport
- Reflex game with QML
- Reverse Geocoding in QML

S

- Secondary camera in QML
- Shared Library DLLs on Qt for Symbian
- Shopping List Application in Qt
- Show the installed Qt and Qt Mobility version on Symbian and Maemo / MeeGo
- Silent installation/uninstallation of application in Qt
- Simple Animation using QML
- Simple QML EBook Reader
- Simple Qt timer application in QML
- Simple Splash Screen in QML
- Smooth scrolling in QWebView on Maemo 5
- Specifying a Symbian Embedded SIS in a Qt project
- Streaming Audio with Qt
- Streaming YouTube videos using Qt Quick in Nokia N9
- Sums Qt Quick Calculator - app showcase
- Symbian C++ and Qt toolbar comparison

T

- Tabbed UI using Meego Qt Quick Components
- Transformations with QWidgets
- Transparent QML Apps
- TubeWiz: Unleashing the power of S60 Qt
- Turning on and off the screen of MeeGo Harmattan using QML and C++

(C) Copyright Nokia 2014. All rights reserved.

- Disco lights in QML- A Random Color Changing Application
- Display Facebook Friend position with Nokia Maps API for Qt
- Displaying animated GIFs and other images using Qt Quick
- Dynamic Widget Reflection
- Dynamic objects Adding/removal with Qt Quick Map API
- Dynamically creating/updating listbox in QML from C++

E

- Element-based Views Without Model Access
- Enabling Qt Animation Framework in an application
- Event Filters in Qt

F

- Fetch files from remote device via Bluetooth FTP
- Filtering lists in Qt

G

- GSoap: SOAP and XML Web services for Qt apps
- Generate XML programatically in Qt
- Get Display information using Qt
- Get EXIF GPS data to use it in QML
- Get MCC MNC in Qt for Symbian
- Get Network information using Qt
- Get Storage information using Qt
- Get System Info programmatically in Qt
- Get System information using Qt
- Get current Date and Time in Qt
- Get device information using Qt
- Get list of installed applications and its UID in Qt
- Get screen coordinates in Qt
- Get thumbnail embedded in a JPG image using Qt
- Getting Host's IP addresses and Interfaces
- Getting available graphics memory using Qt on Symbian
- Glossy Qt stylesheet
- Google Landmarks on a Nokia Map using Qt Quick
- Google Suggest using Qt Quick
- Graphics memory handling
- Group My Pictures for Symbian - app showcase

H

- HTML5 video player app using a
- MeeGo Hatmattan Qt Quick Component - Changing Toolbar at runtime
- MeeGo Qt Quick Component - Static Page Navigation
- MeeGo Qt Quick Query Dialog, Selection Dialog and MultiSelection Dialog Components
- Meego control panel declarative settings applet
- Multi-Threaded Image Processing using Qt Camera
- Multifunctional Image Tool: A base for image interaction
- Music keyboard example in Qt

N

- NFC enabling a Bluetooth Headset using Qt
- NFC initiated Bluetooth chat application in QML
- Native Symbian Dialogs in Qt Apps
- Native Symbian Note Dialogs in Qt Apps
- Nokia N9 Morse Code Player
- Nokia Smart Installer for Symbian
- Number Lock Dialog using Qt Quick

O

- OpenGL with Qt
- Opening Symbian Video editor from Qt

P

- Painting in Qt
- PathView QML Element
- Phonon Helix plug-in fixes for Symbian^3 devices
- Photo effects with Qt
- Photomosaic App with Qt
- Porting WRT widgets to Qt applications
- Porting iPhone Web Apps to Qt using QtWebKit
- Properties in Qt and Symbian

Q

- QAugmentedReality - Local based augmented reality component
- QHdrCamera component for High Dynamic Range Imaging
- QML List with inline editable items
- QML Performance Meter
- QML SMShelper Plugin
- QML Sliding Pages
- QML Tag Cloud
- QML ToolBar element in Meego Qt Quick Components
- Turning phone into magnetic compass by using QML and Qt Mobility
- Turning phone into magnetic compass using Qt mobility project
- Turnstile ListView using Qt Quick
- Turnstile Menu using Qt Quick
- Tutorial: Step-by-step to create a timer-based camera
- Twisted Carousel Animation with the Qt graphics view framework
- Twitter Integration to Qt using Qt WebKit

U

- Understanding NFC Data Exchange Format (NDEF) messages
- Use Share Online Dialog in Qt
- Using GConf from QML applications
- Using Publish and Subscribe APIs in Qt
- Using QDeclarativeImageProvider for speeding up Symbian QML app installation
- Using QDomDocument to parse XML
- Using QMicrophone
- Using QStandardItemModel in QML
- Using Qt and Symbian C++ Together
- Using sound effects in QML-Devotional songs chanting application
- Using the RESTful Map API in QML

W

- WaterBubble Game Using Qt Quick
- Working with QSystemDeviceInfo - System Information API - Part 1
- Working with QSystemDisplayInfo - System Information API
- Working with QSystemInfo - System Information API - Part 1
- Working with QSystemInfo - System Information API - Part 2
- Working with QSystemNetworkInfo - System Information API - Part 1
- Working with QSystemNetworkInfo - System Information API - Part 2
- Working with QSystemStorageInfo - System Information API

X

- XMLHttpRequest in QML with run time proxy settings

(C) Copyright Nokia 2014. All rights reserved.

- QWebView
- Handling Events in Qt
- Handling Gestures in Qt
- Handling an HTTP redirect with QNetworkAccessManager
- QML contact reader application using QtMobility API
- QML horizon component for camera apps
- QReverseGeocode component for quick reverse geocoding in QML

C

- Como converter um TBuf para QString
- Como criptografar um texto usando QCryptographicHash, em Qt
- Como escrever dados em um arquivo, em Qt
- Como executar o navegador Web, RealPlayer, e outras aplicações, em Qt
- Convertendo um widget WRT em uma aplicação Qt

Q

- Q OBJECT, em Qt

Q

- QSharedMemory共享内存例子
- Qmake的使用演示
- Qt plugin 的创建和动态加载
- Qt中如何使用DOM解析XML
- Qt中访问公共的桌面服务
- Qt和Symbian C++的混合编程

S

- Symbian Belle中从应用程序中启动系统拨号界面

T

- TextField实用大全

不

- 不通过Qt Mobility操纵Symbian设备的相机

使

- 使用QML loader 元素动态创建加载QML组件以提高程序性能
- 使用Qt Mobility Map and Navigation API显示地图
- 使用Qt Mobility Messaging API发送短信
- 使用Qt Mobility Messaging API检索短信

利

- 利用OpenGL特性抓取QML屏幕并实现其动态效果

动

- 动态装入并初始化Qt插件

在

- 在MEEGO上如何通过GSTREAMER完成手电筒的功能
- 在QML中如何监听拍照快捷键
- 在QML中用NFC 初始化蓝牙连接聊天程序
- 在QML中调用symbian remote control API 控制音量键
- 在Qt中获取屏幕坐标
- 在Qt程序中使用Symbian Audio Playback API播放声音

如

- 如何 通过QGalleryQueryModel 制作一个简单的图片浏览器
- 如何使用Model View delegate自定义列表
- 如何使用QCryptographicHash加密文本
- 如何使用QDoubleSpinBox
- 如何使用Qt Create IDE V4.5

如 cont.

- 如何制作和使用QML extension plug in
- 如何在QTabBar中插入小部件(Widget)
- 如何在Qt中使用OpenGL
- 如何在中使用Qt中的Qtimer
- 如何将TBuf转换为QString
- 如何用Qt完成录像功能

怎

- 怎样解析JSON

用

- 用QML实现用户定制虚拟键盘
- 用Qt控制Symbian Device震动
- 用Qt控制音量键

缩

- 缩放QPixmap图像

获

- 获得主机IP地址及接口

Д

- Диалог смены пароля на QML

A

- Calendar example in Qt for Maemo
- Como criar um bloco de notas (notepad), em Qt
- Como enviar e receber mensagens, em Qt para Symbian
- Como obter o nome da rede e da

A cont.

- Implementing a layout manager in Qt
- Leitura de IMSI, em Qt para Symbian
- Mobile Extensions
- Qt Carbide.c++ IDE Quick Start
- Qt Mobility Contest - January 2010
- Reading IMSI in Qt for Symbian

A cont.

- Vibrating device programmatically in Qt
- 使用QProgressDialog创建进度对话框
- 如何使用QCompleter
- 如何使用QListWidget和QListWidgetItem
- 如何在Symbian应用程序/widget中使用

(C) Copyright Nokia 2014. All rights reserved.

operadora, em Qt para Symbian
- Get model number, manufacturer and software version programmatically in Qt
- Get network and operator name in Qt on Symbian
- Getting IMEI number in Qt
- How to send and receive SMS in Qt for Symbian
- Splash screen in Qt for Symbian
- Sport News RSS Syndication app in QML - app showcase

Qt加载和缩放图片

C

- Como mostrar a localização de cidades, em um mapa, usando Qt e a API Google Maps, para Maemo
- Creating Debian packages for Maemo 5 Qt applications and showing in the application menu

H

- How to make MADDE work on Windows 7 64-bit

(C) Copyright Nokia 2014. All rights reserved.
