Sandbox/Hamishwillee/WikiTests/InformationBoxes

Series 40 Java and Web App Competition June 2011: There have been two significant developments for developers wanting to make the most of the opportunities offered by Series 40 devices; the opening of Nokia Store to Series 40 web apps and the beta release of the Nokia SDK for Java.

To celebrate these developments we're having a "Series 40 Competition". You have roughly four weeks to create a Java app or web app designed to run on a Series 40 6th Edition, Feature Pack 1 device, and host it as a Nokia project or write a cool article about it as a wiki article, tutorial, or guide.

For more information see: Series 40 Java and Web App Competition June 2011.
