Template:SeeAlso

This template is used to add a list of links to related articles.

Note: using the equals (=) and pipe (|) characters inside the template parameters prevents them working properly. These characters should be replaced with the **=** and **|** codes respectively.

Usage

```
{{SeeAlso|"text content"}}
```

Optional parameters:

- *language*: The language category of the natural language the template is to display in. If no language is specified or if the specified language is not supported then the English version is used.
-
  - Translations exist for: Lang-Portuguese, Lang-Chinese, Lang-Russian
  - For example:

```
{{SeeAlso|language=Lang-Chinese|your text}}
```
