Wiki Contributor of the Month

Every month Nokia Developer honours a member as "Contributor of the Month" (COM) for their outstanding contribution to our community's Wiki. The winner is announced on Wiki Home and awarded a new Nokia device and DVLUP XP, which is equivalent to DVLUP reputation. We also promote the COM winner within our online community through social media.

Note that COM winners are often, but not necessarily, also Wiki contributor of the week.

How do I win

Contributions are assessed by the Wiki Moderators based on the number and quality of articles submitted or substantially improved. If you have recently substantially updated an article please contact hamishwillee to be sure your article is judged for the month.

If two contributors are approximately equal we'll prefer newer members over Champions, but ongoing contributors over "first timers". We also prefer articles that best address the monthly theme (this theme is usually published on the Wiki Home page, and reflects current Nokia Developer priorities). If no one submits work that we consider "outstanding" then we won't award the prize at all.
