

Creating a single SIS installation file for S60 3rd edition and S60 5th edition/zh-hans

为发行方便，有必要将你的S60 3rd edition 和S60 5th edition二进制文件打包成一个单一的SIS文件。

如何做？

将所有的3rd edition 和5th edition文件包括到一个sis文件中然后由安装器程序来确定应将哪些文件安装到哪些手机中。

第一步：在pkg文件中包括针对两个Edition的UIDs

```
; MyApp.pkg
;
;Language - standard language definitions
&EN

; standard SIS file header
#{ "MyApp", (<APP_UID>), 1, 0, 0

;Localised Vendor name
%{"<Localized Vendor-Name>"}

;Unique Vendor name
:"<vendor name>"

;Supports Series 60 v 3
[0x101F7961], 0, 0, 0, {"S60 3rd edition ProductID"}
;Supports Series 60 v 5
[0x1028315F], 0, 0, 0, {"S60 5th edition ProductID"}
```

第二步：使用条件语句告诉安装器程序它需要安装什么

使用条件语句来安装相应的二进制文件

```
IF EXISTS("z:\system\install\Series60v5.0.sis")
;install 5th edition binaries.
ELSE
;install 3rd edition binaries
ENDIF
```

你也可以使用条件语句来安装适当的安装文件

```
IF EXISTS("z:\system\install\Series60v5.0.sis")
;install 5th edition embedded sis.
ELSE
;install 3rd edition embedded sis
ENDIF
```
