

Help:Templates/Public

 This topic lists all public templates (templates that are not "Under Construction" or explicitly tagged as "for internal use").

There are 83 templates in this list

Article	Abstract
Template:-	Forces a break after a floating element.
Template:APIExampleCode	
Template:APIExampleProject	
Template:APIKnownIssues	
Template:APIPurpose	
Template:APIUseCases	
Template:Abstract	Short text describing topic
Template:Abstract.dpl	
Template:Advertising	This template should be applied to the top of any page that is an advertisement for a product or service.
Template:Anchor	This template can be used to create an HTML anchor at arbitrary points within the article, for example just before images. The anchor can then be linked to in the same way as heading anchors.
Template:Announcement	This template adds an announcement to an article. This is intended primarily for category and other main wiki entry point pages.
Template:Archived	Apply this template to articles that are no longer relevant for third-party developers creating commercial solutions today.
Template:ArticleMetaData	This template provides users with information that helps them determine whether an article is likely to still be accurate and relevant. It should be applied to all articles.
Template:ArticleNeedsUpdate	Apply this template to the top of articles that require a specific update or testing to improve quality or to bring them "up to date".
Template:CarbideUILatestVersionAnnouncement	
Template:Center	
Template:ComesWithCode	Template for adding a "Comes with Code" table to articles
Template:CommentInArticle	Use this template to add a temporary comment <i>within</i> document text
Template:CurrentSDKAnnouncementWindowsPhone	This template should be used wherever we need to display an announcement of the "current" windows phone SDK (and of course this template needs to be kept in step.
Template>DeleteMe	Flags an article as <i>ready for deletion</i>
Template:Description	
Template:DesignPatterns	
Template:Designwikitop	
Template:En	
Template:Eq	This template can be used to insert and equals symbol inside other templates (otherwise disallowed by template syntax)
Template:Expansion	
Template:FNKI	
Template:FNWID	
Template:FeaturedArticle	Wiki administration add this template to Featured Articles .
Template:GetAbstract	Gets the abstract/short description for a specified page
Template:GetFeaturedArticleText	This template is used to display correctly formatted text for a specified featured article
Template:GetOriginalAuthor	This template gets the creator of a page
Template:HelpPage	This template should be applied to the top of "Help" pages to add the Help icon and Help category

[Template:HoverText](#)

Use this template to add hover text over some other text.

[Template:Icode](#)

Mark up inline code or filenames in the body of text (see [Help:Formatting Code](#)).

[Template:InfoBox](#)

This template is base class for "notification" information boxes like notes, tips etc. Use it to create new info-boxes when needed.

[Template:Information](#)

[Template:InternalUse](#)

Tags article or template as being "for internal use"

[Template:KBDC](#)

Developers should apply this template to articles in order to mark them as "candidates" for inclusion in the Knowledge Base.

[Template:KnownIssue](#)

[Template:Licence-CC-AttributionShareAlike2.5-NokiaCopyright](#)

This template can be used to apply the Creative Commons Attribution Share Alike v2.5 license licence with **Nokia Copyright**. Note that the license should only be applied to works ported to the wiki under that license - where possible content should be hosted under the default site [Terms and conditions](#).

[Template:Licence-CC-BY-SA-2.0](#)

This template can be used to apply the Creative Commons BY-SA 2.0 license to a document. Note that the license should only be applied to works ported to the wiki under that license - where possible content should be hosted under the default site [Terms and conditions](#).

[Template:Licence-CreativeCommons-AttributionNoDerivatives-3.0](#)

Applies Creative Commons License ([Creative Commons Attribution No Derivatives 3.0 UK: England & Wales License](#))
