Nokia N9 Morse Code Player

A wiki page for sharing the morse player code with the world, as a work in progress.

Version 0.0.1

Here is the basic version based on the Qt Quick application template generated by Qt SDK 1.1.3.

File:Morseplayer.tar.gz

Version 0.0.2

Just submitted the software to Nokia Store based on this version of the code. It is cleaned up a bit with some connect to the MeeGo 1.2 Harmattan resource framework.

File:Morseplayer 0 0 2.tar.gz

Version 0.0.5

Skipping versions 0.0.3 (a trivial bug fix, and 0.0.4 an internal version).

Just submitted the software to Nokia Store based on this version of the code. It is cleaned up a bit with some connect to the MeeGo 1.2 Harmattan resource framework.

File:Morseplayer 0 0 5.tar.gz

Version 0.0.7

Skipping versions 0.0.6 (an internal version).

This version passed through the Nokia Store and is now available.

File:Morseplayer 0 0 7.tar.gz

Version 0.1-proto

Moving the code to 0.1 because it has a useful feature.

File:Morse 0 1.zip
