Recent Article Discussion

Wiki Contributor of the Month for July 2014

Luis Valente (Ipvalente) has been selected as [Wiki Contributor of the Month](#) for July 2014.

Luis has been a Nokia Developer Wiki Moderator for 7 years. He singlehandedly manages all of the Portuguese language contributions, and edits and moderates many English contributions as well. This month, he did a lot of work archiving some of our outdated articles, which is important to do so that users can find relevant, up to date information. Maintenance work may not be glamorous, but it's necessary, and we appreciate that Luis is doing it.

To recognize Luis' contribution to the wiki, we'll be sending him a high end Lumia device, along with 2000 DVLUP XP!

Please join us in congratulating Luis for his contributions [on the discussion boards](#).

Featured Contributors: July 2014

We'd like to extend a big thank you to the community members who contributed in July.
